

I am a daily listener of K-Love in the Cincinnati area. This station is very important to me and so many others in that it inspires us in our daily life. It encourages us as parents and citizens of this community to be involved in serving others. I never have to worry about what is going to come across the air waves that I or my family find offensive. With any other programming there is no telling what will be said or encouraged. Please don't change our service!
